

WALKING 4 SAMUEL

890 kilometres across Spain by Samuel's 83 year young granddad Eric, to raise urgently needed funds for his 11 year old quadriplegic grandson.

Samuel, a healthy sports loving 9 year old boy, was struck down with Transverse Myelitis, a rare incurable neurological condition. He was admitted to ICU at the Lady Cilento Hospital on 30 November 2015 where he was kept for 480 days. He is all but a quadriplegic, having only a small amount of movement in his right leg and big toe. He is now 11 years of age and is finally living at home.

He requires 24/7 care.

This is the Pilgrimage known as the Camino Frances across Spain

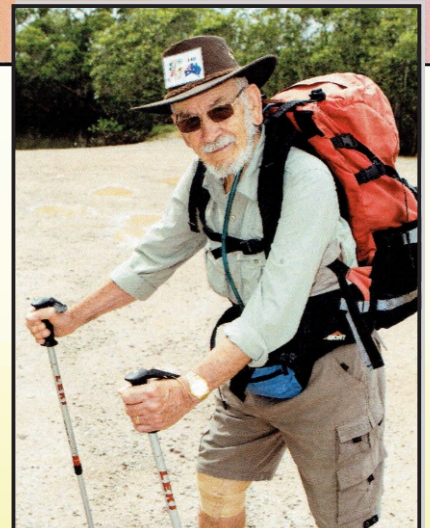

890 kilometres

I NEED YOUR HELP! \$\$\$ Needed please don't let Samuel down.
